

CAREERS IN SCIENCE

A PHARMACEUTICAL INDUSTRY PERSPECTIVE

You want to know what kind of job opportunities you'll have after graduation. You wonder how your classes and research experiences can help you make an impact in your first job. **Learn how during a special panel discussion featuring women scientists from Eli Lilly and Company.** They will answer your questions and discuss careers in science, prospects for women and organizational leadership.

FRIDAY, APRIL 11, 2008

1:00-3:00 p.m. panel discussion with reception immediately following
IT Building, Room 152

A free event hosted by the IUPUI Department of Chemistry and Chemical Biology
RSVP to science@iupui.edu or 317/274-0625

FEATURED PANELISTS

Dr. Dawn Brooks
Director—API Operations, Product Research and Development

Dr. Christina Erwin
Director—Operations, Product Research and Development

Sneha Mascarenhas
Project Management Consultant
1994 M.S. Chemistry, IUPUI

Dr. Maria Rivas
